

## Your Very Special Gift for the Fast Food Junkies

An edgy online action...

The Fast Food Junkies are still at it – trashing our forests to make their throw away packaging! And during the holidays even more so...

This is a busy season for food on the go, and all that food is still being wrapped in Southern forests. Before Thanksgiving we made over 500 calls to the CEO of Wendy's/Arby's, Mr. Roland Smith, to make sure he took some Dogwood Alliance activism with him to the turkey table. Now this week, before Christmas, we can send him another message loud and clear

Click [here](#) to send a message on your own fast food billboard!

We've whipped up a very special holiday gift for Mr. Smith and we need you to deliver it to him. Take a few minutes out of the hustle and bustle to put your own thoughts on a fast-food billboard.

Use your creativity and humor to let him know that our forests should not be used for fast food packaging!

We'll create a forum with the photos, and we want to be sure to include yours. If you can do more than one, that's great!  
<http://www.dogwoodalliance.org/sg/default.php>

We look forward to seeing your fast food billboard.
